

GALLERY HANGING SYSTEM at the Butter Factory Arts Centre

- The Butter Factory Arts Centre (BFAC) uses a hanging system comprised of wires suspended from tracks attached to the walls.
- Hooks, like the one below (approx. actual size), are attached to the ends of the wires.
- These hooks can easily be adjusted up and down.
- To ensure paintings and wall works are securely hung, it is preferable to attach **D rings**, like the ones below, to the work with self-tapping screws.
- Attach D rings so that **the top of the ring is approx. 10cm from the top of the artwork for smaller works, approx. 12cm for larger works**. Please make sure the ring part of the fitting is not on the wooden support as the hanging hooks cannot fit through
- **The larger the work and the heavier its weight, the larger the D rings required.** Each hanging wire can hold 20 kg maximum.
- All the D ring sizes below will fit the BFAC hanging system.
- Picture hanging wire/cord of suitable strength must be attached to the back of work.
- D rings can be purchased from a picture framer and some hardware stores.

To ensure the safety of your artwork it is essential that suitable hanging material is attached. If you have any questions please ask. Thank you for your co-operation.

Preferred D Rings
